Perttu Lähteenlahti

Senior Software Engineer | 10 years of experience

Intro

Experienced developer with focus on mobile & web development. A true full stack developer with experience in frontend, backend, product management, as well as design.

Platform and technology agnostic, so what I really care about is finding and solving the problem at hand.

Empowered by building great product teams and being more than just an individual contributor.

Development skills

React	8 years
React Native	7 years
TypeScript	7 years
JavaScript	10 years
CSS/HTML	10 years
